

**BASIC TASAR SILK WORM SEED ORGANISATION, BILASPUR , CHHATTISGARH**

**BTSSO, BILASPUR-Training Programmes**

Sl.No.	Course	Batches	Schedule&Duration	Seats/Batch	Course Fee(Rs.)	Course Content
1	<b>Skill Enhancement training Program(At BSM&amp;TC/CTSSS)</b>  A) Moth tester B) grainage Helper C) seed Rearer	I, II, III Tasar silk worm Seed Rearing & grainage season	15 days 15 days 30 days	As per action plan 2015-16	Stipendary Training	Practical training in moth testing, grainage activities and seed crop rearing
2	<p><b>Integrated Skill Development Scheme(ISDS)</b>                      Programme will be conducted at BSMTCS                      Duration of training: 20 days                      Target Group : DOS/NGO officials and farmers                      Nature of Training: Stipendary                      Course contents :</p> <p>1. Tasar Seed Cocoon Production : tasar Silk worm Seed Rearing -Application of New Technology in Tasar Rearing, Host Plant and Chawki Garden Maintenance. Chawki Rearing under Nylon Net, silkworm Transfer, Duration of Moulting, Late Age Rearing, Spinning and Harvesting, control measures of various disease pests and predators</p> <p>2. Tasar Seed Production: Model Grainage House, Disinfection and Hygiene in grainage house, seed cocoon Sorting and preservation, Dfl preparation, Mother examination, Egg washing, disinfection and Transportation.</p> <p>3. Tasar Silk Worm Disease Containment: Hygiene maintenance in host plants and chawki garden, Prevention and control of the silkworm and host plant disease, Maintenance of microscope, smear preparation, Identification, of Pebrine polyhedral bodies.</p> <p>Note :SI.Nos.1 to 4: Transportaion, lodging and boarding will be arranged by the sponsoring agencies/ candidates; SI.Nos 2 to 6: Transportation, Lodging and boarding will be arranged by CSB..</p>					
3	<b>Need based training programmes</b>					
i	Grainage operation(At BSMTCS/CTSSS)	As per the equipment of DOSs during the months of June, August & October	1 week	As per the requirement of DOSs	Nil	Maintenance of hygien in Grainage, Disinfection, Cocoon Garland preparation & hanging, Maintenance of Abiotic conditions, Selection of Female Moths, Oviposition, Mother moth examination, Egg washing, Drying, Incubation, Testing, Transport
ii	Tasar Silk worm Rearing(At BSMTCS/CTSSS)		2-3 weeks		Nil	Chawki Rearing under Nylon Net, worm transfer during late age Rearing, Spinning and Harvesting, Control Measures of various Diseases, pests and predators.
iii	Moth Examination (At BSMTCS/CTSSS)		1 week		Maintenance of Microscope, smear preparation, Identification of pebrine spores, polyhedral Bodies, Bacteria etc. Maintenance of Hygienic conditions.	
iv	Raising of Nursery, Establishment of New Plantaion, Maintenance of Plantation		1 week		Nil	Collection of seeds, soaking, Heap Making ,Germination of seed, application of fertilizers of food plants and control measures of pests
